"NASAL VOICES, CATARRH AND

I prominent English woman says the merican women all have high, shrill, nasal voices and false teeth. Americans don't like the constant twit-ting they get about this nasal twang, and yet it is a fact caused by our dry, stimul ting atmosphere, and the universal presence of catarrhal difficulties. But why should so many of our women

have false teeth? That is more of a poser to the English. It is quite impossible to account for it except on the theory of deranged stomach action caused by improdence in eating and by want of regular exercise.

Both conditions are unnatural. Catarrhal troubles everywhere prevail and end in cough and consumption, which are promoted by mal-nutrition induced by deranged stomach action. The condition is a modern one, one unknown iesdij disesse into families of innocent to our ancestors who prevented the people to destroy their lives, etc. The cutarrh, cold, cough and consumption by ace of the Kentuckian blanched, and be a undant and regular use of what is now gratted his teeth. A RUN ON THE BANK, THE

Committee of Merchants Help a Dakota Banker Through a Panie. I ran across a New York man the other day who is largely interested in the banking business of Dakota. The conversation drifted into a discussion of the character of the people out there. "They may be rough in their manners," said, he "and uncouth in their way, but they stand by a man when he is in trouble and they never forget a friend. I had an opportunity," he went on, "to test this trait not many years ago. The bank of the town where I was staying found itself greatly embarrassed one fine day by the failure of its principal correspondent in the terri- od with the assassin-every man fint was tory. This fact became known late in the glad that the noblest President ever elecafternoon of the day that the news of the ted was dead—was a Democrat. They asked for an explanation of the sitnation. It was given to them and likewise an opportunity to look at the books. A short examination sufficed to show that the bank was only temporarily embarrassed. They said to the president, 'You open the doors at 10 o'clock as usual andway the depositors: we'll see you through this thing. 'But how are you going to do it! said the president. I have but \$6,000 here and there are at least \$30,000 n deposits to be met. Half of that sum s clamoring on the sidewalk now. Never mind, you open the bank and go ahead,' said the committee,' and we will see you through."

"Well, the bank was opened and in

rushed the depositors and out went the money. The pile of greenbacks on the cashier's desk grew smaller and smaller and the crowd of depositors continued to increase with every minute. Still the payng at the teller's window went on. On the sidewalk the people who had drawn their money were met by some of the merchants who had promised to see the bank through. 'What are you going to do with your money?" they would ask. 'I don't know,' came the answer. 'Suppose you leave it with us; you know our house and know that we are responsible. We will give you our note and so much interest.' To the farmers (for the majority of depositors were farmers) the money in their pockets where it drew no interest was of little use; they preferred, of course, suaded to part with their money. As soon as they had received the money the merchants would deposit it in the bank. The same money was paid over the counter three times or oftener in the course of the day, and when the bank closed at 3 o'clock in the afternoon it had in its vaults as much money as it had started with in the morning, and with \$6,000 it had paid over \$20,000 of deposits. The promptness with which it met the demands of the depositors staved the panic and the next morning there was not the slightest indication of a run. This is an absolutely true story," said my informant in conclusion, "for I was myself the president of that bank. Now can

you match that by anything in the east?" -Cor. New York Tribune.

Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely Cured

My eyes are now in a splendid condition, and I am as well and strong as ever.

— Mrs. William Gage, Concord, N. H. For a number of years I was troubled For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers. - C. E. Upton, Nashua, N. H. From childhood, and until with a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflamma-tion in my left eye. Three alcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was final-ly induced to use Ayer's Sarsaparilla.

By Taking three bottles of this medicine I have been entirely cured. My sight has been restored, and there is no sign of inflamma-tion, sore, or ulcer in my eye. — Kendal T. Bowen, Sugar Tree Eldge, Ohio. My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of any kind. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommen-dation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored. Her cure is complete. — W. E. Suther-land, Evangelist, Shelby City, Ky. ††
